## **BPCS Experience**

### **Australia**

#### **Jun 2006 – Oct 2006 Contract Analyst/programmer NHP Electrical Engineering, Melbourne**

Contract Senior Analyst/Programmer, AS400, Asset/RPG ILE WDSC environment, Showcase, Robot. Assist in planning and executing BPCS 6.02 to ERPlx 8.31 migration for Australia, also Exonet PC system to ERPlx for New Zealand. B2B invoice, order and order acknowledgement XML interface development. 2<sup>nd</sup> level support tasks.

### **United Kingdom**

#### **June 2001 – Sept 2001, Senior Developer. Autobar Group Ltd, London.**

Tasks required extensive travel in France, Holland and London, working with French and Dutch speakers to develop standardised English applications in vRPG. Exposure to DataMirror and Asna Visual RPG, BPCS etc.

#### **Nov 1994 – Feb 1995, Josiah Wedgewood, UK, contract analyst/programmer.**

BPCS and JDE manufacturing and inventory implementation. RPG400, AS/SET and SQL developments with upper case design tool usage.

### **New Zealand**

#### **Aug 1993 – August 1994, Senior Analyst/programmer and consultant.**

Castrol NZ System/36 to AS/400 BPCS upgrade of financials, and planning for manufacturing and distribution conversion/implementation.

#### **Sept 1985 – Aug 1994 Senior consultant contractor.**

Designed, developed, marketed and supported the IBIS payroll/personnel system, which was installed in numerous locations throughout NZ, the leading solution competing with JDE, at one time. The system was eventually sold to SSA (BPCS) New Zealand, and became the 'BPCS (replacement)' PayPak/400, payroll offering in New Zealand. Also provided contract services to 20-30 different major organisations in Auckland, Hamilton, Wellington, Christchurch and Dunedin. These roles covered all aspects of information systems and services, specialising in systems and application support, notably, resolving failed or stalled installations. Clients included 6 consulting organisations in addition to several well known New Zealand companies.

Several of these roles required BPCS skills and local extensions and modifications were developed.

**Aug 1985 - Aug 1987 New Zealand Wire Industries, Auckland, NZ,  
I/S manager, permanent position became contract.**

Responsible for total systems redevelopment and replacement of Wang VS applications. Mostly bespoke RPGIII, with BPCS financials, 2 staff, S/38.

Due to adverse trading situation, organised the outsourcing of the system and operations to a local bureau service (SAS).

Started general contract work, in addition to developing the IBIS payroll system (PayPak/400).

**Feb 1982 - Aug 1985 Auckland Milk Corporation, Dairy company, NZ,  
I/S manager, permanent position.**

3.5 years, S/38 re-developed all systems from batch to interactive applications.

I had to put in a major effort to turn around this stalled installation, after the previous manager was dismissed. Major political issues had to be overcome. 8 staff. In development and operations, mostly bespoke developments of all production, inventory, sales, financials etc. BPCS asset register installed.
