**Key achievements (1970-2013):****Diverse roles, situations and locations.**

- **Includes:** 15+ years of project, IT, project, analysis, development, implementation, support and operations management experiences. These international successes include total bespoke redevelopment of all company IT systems, (ERP solutions etc.) for 5 or more companies.
- Following earlier certification success with BCS (Chartered Membership), David achieved CP status with ACS in December 2008. Conveniently in Wellington, NZ, David was able to provide research and promotional assistance in the development and acceptance of NZ professional certification (ITCP) as **Professional Programme Coordinator** for NZCS until May 2009. During this period David was awarded a BCS Fellowship.
- **Currently as IT Leader for SE Asia and Houston** locations, achieved operation stability managing 100 issues and resolving 50 in a complex highly matrixed multinational environment. Operating at SFIA level 6 or 7, specialising in strategy and support, business process improvement and project management.
- **As release manager** David redeveloped and implemented process improvement of Telecom NZ release management system and function for EDS NZ. This was regarded as the greatest improvement in this functional area for many years.
- **As a senior development and support analyst**, David designed and developed automated operations monitoring for a large UK data centre supporting 1500 users worldwide. Other responsibilities included: - technical operations support, project implementations and maintenance, planning of OS and application upgrades etc. This provided stability and growth. David also recovered a damaged operating system issue which rescued disaster recovery and system upgrade capabilities which had existed for a year or more prior to my employment.
- **As a business analyst/project co-ordinator** for BPCS client/server European ERP implementation. Included duties and travel in France, Holland, Belgium and the UK. Included obtaining requirements and developing specifications/solutions in South West France for German development.
- **As a senior contract analyst/programmer** for Computer Telephony Integration solution support and development, ICBS upgrade, and warehouse system developments for 3 UK companies, and temporary head of design for multinational based in Brussels, Belgium.
- **As a senior contract analyst/programmer**, technical consultant and project manager: upgrade of CATV & telephony (Cablemaster) package, multiple UK and European clients, over 14 man-years with £1M budget.
- **As managing director and technical consultant** of own IT and project services companies (1986-2009) in NZ, Australia and UK. Successes included the design, development marketing, implementation and support of the leading AS/400 HR and Payroll solution in NZ. Eventually purchased by SSA Pacific to be used in approximately 26 companies.

- **Contract system development manager** to Sky TV (NZ), maintained stability, supported applications, marketing efforts and assisted replacement system selection. Business analyst and technical consultant, supporting 7 Asian business centres (Marine Insurance) over 5 years providing bespoke multi-currency and multi-lingual facilities. Team member obtaining Synon/2e 1 million lines of code award.
- **As a senior business analyst/project leader** for several key aspects of ICMS implementation, for IBM and Telecom NZ customisation project over 6 man-years. Saved IBM \$1 plus by improving system by 27% vs. target of 6%.
- **As sole 24x7 applications and operations support consultant**, NZ's largest site of 5 AS/400s, for IBM and Telecom NZ from go live until site was fully operational. Remuneration \$NZ 250,000 per annum (1990-91).
- **Recognised as a leading IBM S/38 and AS/400 expert throughout NZ for over a decade** (1985-1997), worked with and for IBM and Telecom NZ.
- **Managed entirely, the modernization or stabilization of 4 failing or stalled IT installations**, developing and/or implementing new Enterprise systems for each company UK and NZ.
- **Managed 25 staff providing a 24/7 operations service** to ERP systems across 3 sites, including 1 year in Belgium. IBM mainframe environment.
