Understanding Your Exam Results

Your exam results are reported in two ways:

1. An overall pass/fail result score is generated based on the number of questions you answered correctly.
2. The second level of results is the assignment of one of three proficiency levels to each chapter.
 - o Each chapter is assigned one of three levels of proficiency—Proficient, Moderately Proficient and Below Proficient—based on the number of questions answered correctly within the chapter.
 - o This provides direction about where your strengths and weaknesses fall.

PMI defines the levels of “proficiency” as follows:

Proficient – indicates performance is above the average level of knowledge in this chapter.

Moderately Proficient – indicates performance that is at the average level of knowledge in this chapter.
